Just a quick note from our Ctee for Mother's Day.

== MOTHER'S DAY ==

We hope the people in your circles share their practical appreciation. Of course, this covers the current, the aspiring and the Grand ones.

It could be an acknowledgment for the planning, nourishing or journeying to keep the project, the team or the family on track.

It also could be a time-out space for some to find peace from the world's craziness so far.

== OTHER COUNTRIES ==

For the celebration of it, we found the following link from WikiWand that covers quite a few countries.

In Australia, it shows https://www.wikiwand.com/en/Mother's_Day#Australia.
