== INTRODUCTION ==

Now we've passed the Winter Solstice, the $3\pi/2$ point of a sinewave, life should naturally progress in the southern hemisphere.

To use the old beach fishing anecdote, reel in the fish as the waves lap onto the shore rather than struggling as it goes out. The following new role(s) may help resynchronise your flow....

As Dr. Matthew Priestley's email stated:

"Subject: Promoting x2 New Technology Translator Roles

Hi Robert,

It has taken some time (always does with bureaucratic processes), but I finally have two new technology translator roles which are being advertised.

Would you be able to help promote the following link to the electrical engineering alumni network?

<https://external-careers.jobs.unsw.edu.au/cw/en/job/533153/rd-electrical-engineer-technology-translator>

Cheers,
Matt".

== ROLES SNIPPET ==

"You'll be working on a new innovative large project with industry partner Green Gravity, who are developing a gravitational energy storage system (GESS). This project will allow the candidate to become a world-leading expert in the GESS and energy storage area."

== RECENT ARTICLE ==

If you recall from my long-ago post, they officially started working on projects in July 2024.

The UNSW Newsroom article was titled, "UNSW program fast-tracks green tech from lab to market" and posted on 28 May 2025.
