== OLD HUMOUR ==

Something I copied into the back of an early diary.

[1] How to get an engineer's attention:

- a) Break something,
- b) Free coffee,
- c) Say, "there's got to be a better way to do this".

[2] On a printed T-Shirt:

Engineer

noun. [en-jun-near]

An individual who does guess work based on unreliable data provided by those of questionable knowledge.

See also Wizard, Magician

[3] A definition for Engineer:

One who gets excited about things that no one cares about.
