== INTRODUCTION ==

The life of the advertised position was only one-week.

== SPECIFICS ==

Company: Endeavour Energy

Title: Asset Risk & Performance Manager

Closes: 19th August 2025

== EDMUND LI's POST ==

"We're Hiring: Asset Risk & Performance Manager

Location: Western Sydney

Western Sydney is booming - and so is the opportunity to shape its energy future. At Endeavour Energy, we're on a mission to power one of Australia's fastest-growing regions with smarter, sustainable, and more resilient infrastructure.

We're looking for a strategic and forward-thinking Asset Risk & Performance Manager to join our team. This is a pivotal role where you'll help drive asset performance, optimise asset risk, and make a real impact in the energy transition.

Why this role matters:

- <> Be at the forefront of transforming how we manage critical infrastructure
- <> Influence decisions that shape the future of energy in Western Sydney
- <> Work with a passionate team committed to innovation and sustainability
- <> Help us deliver safe, reliable, and affordable energy to over 2.7 million people
- <> If you're ready or know someone who is ready to lead with purpose and help power communities for a brighter future, we'd love to hear from you.

== JOB RESPONSIBILITIES ==

From advertisement:

- Lead the development and continuous improvement of asset strategies, policies and standards informed by FMECA and lifecycle analysis, ensuring our network is safe, reliable and cost-effective throughout its lifespan.
- Oversee preventative and condition-based maintenance practices, working closely with Field Operations and the EPMO to ensure proactive risk management and consistent asset performance.
- Manage vegetation strategies in partnership with Major Contracts and Procurement teams, supporting safe and efficient network operations.
- Collaborate with internal experts to design and maintain robust asset risk and intervention value models that guide asset strategies, investment decisions and climate resilience planning.
- Drive long-term asset planning and forecasting, developing intervention strategies and maintenance programs that balance performance, safety and sustainability.
- Lead condition monitoring and use data insights to identify performance issues and recommend responsive improvements beyond standard practices.
- Support team development, mentoring and inclusive leadership while contributing to the delivery of Endeavour Energy's Network Business and Corporate Strategies.
- Offer trusted technical advice across teams to support network expansion, incident recovery and problem-solving.
- Represent Endeavour Energy on industry panels, fostering collaboration and alignment on technical standards and best practices.
