== OTHER REUNIONS ==

If anyone else from ElecEng has a significant one, feel free to mention it here and we'll help it charge through the conductors.

Alternately, get in touch with the Head of School, Prof. Jinhong Yuan. I'd say, something could be worked out. I heard the 75th went well from the earlier UNSW press release.

Hopefully, our 40th will cause a few stories and laughs as we all know each other's style and sense of humour.

== OLD HUMOUR -- ELECTRICIAN RATES ==

Here's another quickly scribbled gem from my diary.

It was from a chap that worked with us in the early 1990's when I was circulating between the office and the field with our magnetic door access security products. False alarms were headaches to track down.

\$100 / hr - Minimum

\$150 / hr - If you watch

\$175 / hr - If you help

\$200 / hr - If you worked on it first

\$250 / hr - If you tell me how to do my job

-- Tonight's addition:

\$300 /hr - If you mention "I saw it on the internet"

The prices have been adjusted to reflect current rates.

Could this be helpful to our micro-managed friends to know where they are in the ladder?
