== INTRODUCTION ==

Now that Autumn has settled in and the time is back to normal, the projects and concentration can easily step up into a (fire) horse's canter.

Hopefully, over this long weekend, we'll see more revelry from the ANZAC decendants after the early morning tributes and commemorations.

== ANZAC DAY ==

After the Ode is recited, we can all say, "Lest we Forget".

Also, thank you to the friends from ElecEng who continued the Anzac spirit in their Defence workplaces. Hopefully in time, their younger colleagues can demonstrate the interaction & teamwork.

== EMU ROBOTICS RESULTS ==

No doubt, they picked up a few more good ideas from the New York Regional to adapt into their Australian arena.

Team 4729, geared into position 20 on a ladder of 51 competitors.

Matches = 8, Playoffs = 2

Qualification Matches: 5, 10, 19, 26, 37, 50, 58

For their rankings & videos, click on the NYNY tab:

<https://frc-events.firstinspires.org/2026/team/4729>

As a comparison, Team 1601, a local NYC one, geared into spot 13 on the ladder.

== WORKPLACE QUOTES ==

By understanding, interfacing with, and controlling parts of the visible & invisible world, you may recall or add to one of these from my paper diaries:

1 - "Do it once, do it right"

2 - "Do it right the first time"

3 - "Engineers keep things ticking along"

4 - "If it bothers you, do it properly"

5 - "Wizardry spoken here"

6 - "Don't find a fault, find a remedy. Anyone can complain"

7 - "Stay grounded"

8 - "When sparks fly, we're nearby"

9 - "Bridge the gap between the dark and the light"

10 - "Be a troubleshooter to navigate the current of complexity"

Bonus

11 - "When in doubt, read the datasheet".

This can also include the diagram, the instructions, the manual, the specification or the published standard so you can seek answers to some informed questions.
